Submit Paper

You can submit papers to a Turnitin assignment from their Turnitin submission inbox. You can submit via one of two methods: file upload or a copy and paste text submission.

File Requirements

Turnitin currently accepts the following file types for upload into an assignment:

Microsoft Word® (.doc/.docx)
OpenOffice Text (.odt)
WordPerfect® (.wpd)
PostScript (.ps)
HTML
Hangul Word Processor file (.hwp)
Rich text format (.rtf)
Plain text (.txt)
Adobe® PDF
Microsoft PowerPoint® (.pptx, .ppt, .ppsx, and .pps)
Microsoft Excel® (.xls and .xlsx)

The file size may not exceed 40 MB, the maximum size will apply to each submission in each section. Files of larger size may be reduced in size by removal of non-text content.

Note: Text only files may not exceed 2 MB.

Note: PDF documents must contain text to be submitted. PDF files containing only images of text will be rejected during the upload attempt. To determine if a document contains actual text, copy and paste a section or all of the text into a plain-text editor such as Microsoft Notepad or Apple TextEdit. If no text is copied over, the selection is not actual

text.

Tip: Users submitting scanned images of a document or an image saved as a PDF will need to use Optical Character Recognition (OCR) software to convert the image to a text document. Manual correction of the resulting document is highly recommended to fix any errors caused by the conversion software.

Note: Some document formats can contain multiple data types. This includes text, images, embedded information from another file, and formatting. Non-text information that is not saved directly within the document will not be included in a file upload. This includes references to a Microsoft Excel® spreadsheet included within a Microsoft Office Word document.

Note: Users whose files are saved in a file type that is not accepted by Turnitin will need to use a word processing program to save the file as one of the accepted types. Rich Text Format and Plain Text file types are nearly universally available in word processing software. Neither file type will support images or non-text data within the file. Plain text format does not support any formatting, and rich text format supports only limited formatting options.

Tip: When converting a file to a new file format, users should rename their file with a name other than that of the original file. This is suggested to prevent permanent loss of the original formatting or image content of a file due to it being overwritten.

File Upload Submissions

The file upload allows you to submit to your assignment by directly loading the file from your device.

Users whose files are saved in a file type that is not accepted by Turnitin will need to use a word processing program to save the file as one of the accepted types. Rich Text Format and Plain Text file types are nearly universally available in word processing software. Neither file type will support images or non-text data within the file. Plain text format does not support any formatting, and rich text format supports only limited formatting options.

The 'Submission extract:' section contains a paragraph of text starting with 'A Communist Heritage of Forgetting and Remembering: The Statue Park in Budapest Soviet Union in the late 1940s adopted an aggressive ideological campaign to consolidate the regime through East-Central Europe. The most visible aspect was the massive public display of revolutionary symbols in cities under iron curtain: Flags feature the hammer and sickle, emblems of unity between industrial and agricultural workers in the class struggle; Buildings were crowned with Red star of communism, posters of Marx-Engels-Lenin-Stalin on the wall, whilst statues of heroes and communist comrades were erected, with heads uplifted, staring unblinkingly into the future. When the Easter- Central European dictatorships demised in 1989-90, political upheavals often followed with popular demonstrations in which many visible symbols were destroyed: socialist-inspired street and square were quickly renamed, emblems as the Berlin Wall or the Stalin statue were torn down, and the fate of these public memorials carving communist ideology became an important issue. Some material legacy can be rapidly effaced. However, other built heritage – the plethora of monumental buildings or tower blocks built for industrial workers- will persist for much longer, reminding a period of history that many people want to forget. Turnitin compares papers against an ever-expanding database of Internet pages, archived pages that might not be available anymore, a subscription repository of periodicals, journals, publications, and a repository of previously submitted papers.

The similarity score is a percentage of the paper's matches to other sources; it is not an assessment of whether the paper includes plagiarized material. A similarity report is a tool for instructors and students to easily find matches or similar text within submitted work.

The color of the report icon indicates the similarity score of the paper, based on the amount of matching or similar text that was uncovered. The percentage range is 0% to 100% The possible similarity indices are:

- **Blue:** No matching text
- **Green:** One word to 24% matching text
- **Yellow:** 25-49% matching text
- **Orange:** 50-74% matching text
- **Red:** 75-100% matching text

Match Overview

The Match Overview gives you a breakdown of all the matches that have been found in the paper and allows you to clearly view the similarity score. Matches are ordered by the highest instance of similarity down to the lowest. Each match has a color and a number attached to it. These color tags will help you to find the match on the paper itself.

1. To view the Match Overview, click on the red numerical similarity score from the product toolbar.
